Handles that cannot be IntroCusped (due to cracks, corrosion, non-standard size or plastic handles) **will be replaced with new D-Sharp Dental Life™ instruments unless specified below.** You can also “Trade-Up” your old handles for new D-Sharp Dental Life™ instruments at 15% below regular retail prices. The Operatory Management Network (OMN) recycles unserviceable handles and donates all proceeds to charitable organizations promoting oral health around the world!! We do not IntroCusp probes, explorers, Hartzell, Brasseler or Nordent handles.

IMPORTANT: If my instrument cannot be IntroCusped or if I wish to Trade-Up my old handles:

- Please replace my instruments with D-Sharp Dental Life™ instruments
- Please call for approval before replacing
- Please do not replace. **OMN will recycle all handles that can not be serviced**

How to Prepare your Order

- 1) Group instruments together as you would like them returned to you. This includes any handles that are to be IntroCusped with tips that currently do not, or will not match the handle ID after servicing. For example, if you have 5x 204S handles and 5x GR 11/12 handles that will all be IntroCusped to 204S, you would indicate on the order form “10x 204S” only.
- 3) Bundle and label instruments together by instrument type and quantity (ie: 10x204S, 5xH6/7)
- 4) **ALL instruments MUST be sterilized. Your confirmation is required before we can proceed to process your order.** Instruments received unsterilized will be returned. Shipping charges will apply.
- 5) Please be sure that you have completed the section above indicating your instructions for instruments that can not be serviced. Please advise your team of your order to avoid any delay.
- 6) Operatory Management Network uses UPS Standard Service. If you wish have your order shipped return “Express”, please indicate this on the order form. Express shipping surcharge is \$10.00.
- 7) You can expect that your order will be at our facility for approximately 2 weeks (not including shipping time) and that special, individual care will be taken on each order.

*Should you require any assistance completing this order form, please contact our office at
1-877-837-4277 xt. 24 or via email at info@operatorymanagement.com*
